

62 AW/CC Roll Call

30 July 2014

Team McChord,

It is always an exciting time when we get the opportunity to tell our stories to AF senior leadership. We got yet another chance to do just that last week while hosting **Gen McDew, Ms. Evelyn, and Chief Gamble** during their trip to JBLM. As the Commander of Air Mobility Command, Gen McDew saw firsthand some of the amazing things we are doing for our Nation every day. Whether discussing Force Management, showcasing our unique processes under joint basing, or highlighting our continuing efforts to ensure all Airmen are valued and appreciated, you made this visit purposeful and impactful at every turn. Operationally, it is quite clear that the passion and excellence with which we think about and execute our **Global Reach** mission is as strong as ever! You continue to sharpen the sword, answering the nation's call for global mobility while ensuring we deliberately develop the next generation of Airmen. **THANK YOU!** Please also share my sincerest thanks with your spouses, who turned out in great numbers to visit with Ms. Evelyn to talk about the issues affecting our families. Hearing directly from them on how much our families share in the sacrifices of our Airmen is powerful and helps ensure we have the right programs and services in place to keep our families strong. Thanks to your stories, I'm very confident that Gen and Mrs. McDew and Chief Gamble are returning to AMC better equipped to make our lives and our Air Force better!

PROFESSIONALS OF THE WEEK

A1C Erich Held, 62 MDS

TSgt Andrea Plocar, 62 MDS
